**Re: Letter of Recommendation**

I am writing to recommend without reservation the services of WiseNet Asia Pte Ltd.

I first engaged WiseNet in 2015 for the support in filling up a Senior Management position in Indonesia, the experience I have with the consultant Mr. YH Koh was indeed very good. Mr. Y H Koh has been very professional, understanding and great in following up during the entire confidential search process. He has exhibited the competency in understanding our business and also the type of candidate's profile that will fit into the organization. He has provided valuable advised to me and my Managing Director during the shortlisting process which allowed the right decision to be made. With the great experience we have had with WiseNet, we have continued to engage them for another Senior Management position in Malaysia. We believe in their professional service we will be able to close this position with a good and strong candidate.

I am confident that engaging the competent experts at WiseNet Company is a decision you won't regret. I will be happy to provide further information regarding the quality and effectiveness of WiseNet's service. I can be reached by email at  or via phone at +65
